Give Staying Healthy Your Best Shot

One of the best ways to prevent illness is to get vaccinated. Whether you get an annual flu shot or vaccines to protect you against pneumonia, meningitis or other diseases, it is important use these resources to keep you and your family in good health.

If you are a state health plan member, you may:

- Get a free immunization at your doctor’s office. The COVA Care, COVA HDHP and Kaiser Permanente plans pay 100 percent of the allowable charge for member immunizations under the wellness benefit.

- Ask your local pharmacist. Some immunizations also may be available at local retail drug stores. If you are a COVA Care or COVA HDHP member, you pay a tier copayment, or deductible and coinsurance, just as you do for prescriptions under your plan. You may also be responsible for any fees the pharmacy may charge to administer the vaccine.

- Regardless of what plan you have, be sure to take advantage of opportunities to get vaccinated.

Remember that COVA Care and COVA HDHP also provide free flu shots during flu season at participating pharmacies. Look for more on that this fall.

So, get vaccinated to protect yourself and your family – your health, and theirs, could depend on it. Need more information? Contact your Benefits Administrator.
